

AESUB TARGET NET

FAST FACTS

- ✓ Retroreflective reference points for immediate application on medium-sized or large components
- ✓ Magnet on each point base
- ✓ 300 dots are mounted on a black mesh - 1.50 x 2.00 m (larger dimensions on request)
- ✓ Removing the points is not necessary
- ✓ Reusable
- ✓ Perfect for application on all vanishing AESUB scanning sprays & liquids

Sticking and removing dots has never been so easy thanks to the AESUB target net with its magnetic targets! Unfold and position the AESUB target net in less than 20 seconds. Scan in the usual manner and use standard post-processing routines to easily remove single elements and points of the AESUB target net in the post processing. Remove the net in just seconds!
